The first thing you need to do is choose a topic. What do you want to blog about? Your favourite sport, music or video games? Choose a topic you feel happy to talk about and find interesting. You've got a topic? Now choose a title and a designfor your blog.

Who's going to read your blog? Is your blog for your friends and family? Is it on a special topic you and your friends like? What is interesting about it?

*3 Decide on a platform* 

2

There are different free platforms to start your blog. Most platforms give easy instructions on how to start. Some popular platforms are Blogger, Medium and WordPress. Take a look and decide!

#### 4 Write a blog post

It can sometimes be difficult to write your first blog post. It's a good plan to share your ideas with close friends and family before you put your post online. Don't worry if you don't like what you put online you can always change it later. Remember, make sure people let you use their photos or information. 5

At the beginning, you can choose a day of the week to write your blog posts. It's important to write a post every week.
